PETITION UNDER 37 C.F.R. § 1.181

Commissioner for Patents
Office of PCT Legal Administration
P.O. Box 1450
Alexandria, VA 22313

Dear Sir:

Applicants hereby petition the Office of the Director under 37 C.F.R. 1.181 to invoke its supervisory authority. Applicants wish to correct the filing date accorded to U.S. patent application number 10/531,159 ('159 application), filed by Keim *et al.* Applicants submit that the correct filing date is April 11, 2005.

The present petition is Applicants' third attempt to address this matter. Applicants have filed two petitions under 37 C.F.R. 1.10(d) in attempts to correct the filing date accorded to the '159 application. Both prior petitions have been dismissed by the USPTO. Notwithstanding the prior denials, Applicants maintain that the USPTO has not properly considered all evidence, and seek to invoke the supervisory authority of the Office of the Director to reconsider the relevant facts in support of its position.

On April 11, 2005, Applicants filed by Express Mail a U.S. patent application as a nationalization of PCT patent application PCT/US2003/032887, filed October 14, 2003, which claimed priority of U.S. provisional application number 60/417,843, filed October 11, 2002. The U.S. provisional application is believed to have continuous pendency with the PCT application because October 11, 2003, fell on Saturday and the next regular business day for the USPTO was October 14, 2003. The Certificate of Mailing for the U.S. patent application bearing Express Mail No. EV667329735US and executed on April 11, 2005, and accompanying transmittal documents addressed to the United States Receiving Office, is provided in Exhibit A.

Applicants deposited the Express Mail package containing the U.S. patent application directly with employees of the U.S. Post Office on April 11, 2005, under Express Mail Label No. EV667329735US. The Express Mail package was pre-addressed to: Mail Stop: PCT RO/US, Commissioner of Patents, P.O. Box 1450, Alexandria, VA 22313-1450. Please see attached Exhibit B.

On April 26, 2005, Applicants received the return postcard with the assigned serial number for the U.S. patent application. On the return postcard, the accorded U.S. filing date was given as April 12, 2005. Please see Exhibit C.

Upon close inspection, Applicants discovered that the U.S. Post Office had written the date-in on the Express Mail receipt as April 12, 2005, see attached Exhibit B. Further investigation, including interviews with all persons involved in handling the Express Mail package, and discussions with the U.S. Post Office, revealed that the U.S. Post Office had made a mistake as to filling in the "date accepted" field of the Express Mail receipt. In fact, the Express Mail package was deposited directly with Post Office employees on April 11, 2005, and is entitled to receive the same date as its filing date.

In support of Applicants' petition, the following facts are offered as evidence of the events as they transpired. Express mail packages are taken once daily from the offices of Quarles & Brady (law firm representing assignee) by Intellequick courier service. Intellequick makes one pick-up of Express Mail packages from Quarles & Brady each business day and

transports them to the U.S. Post Office. The affidavits of Maritza O'Neill and William Bilyk confirm that Express Mail EV667329735US containing the subject national stage patent application was placed in the Intellequick courier pick-up bin by about 4:30 p.m. on April 11, 2005, see Exhibit D. These affidavits were made under oath and penalty of perjury and should be accepted as accurate and reliable statements.

Intellequick maintains a courier log with time and date entries for each pick-up and delivery in its normal course of business. As recorded in the courier log, the Express Mail was picked up from Quarles & Brady at 6:07 p.m. and deposited with the U.S. Post Office at 6:56 p.m. on April 11, 2005, see Exhibit E. The courier log is an independent and contemporaneous record, made within one business day of the deposit in question, that the Express Mail was in fact taken to the U.S. Post Office at the indicated time.

As further evidence that Express Mail EV667329735US was deposited with U.S. Postal Service on April 11, 2005, note that the U.S. Post Office records show Express Mail EV667329735US in its possession as of 5:05 p.m. on April 12, 2005, see Exhibit F. As recorded in the Intellequick courier log, the next Express Mail pick-up by Intellequick from the offices of Quarles & Brady did not occur until 6:08 p.m. on April 12, 2005. This following delivery was made to the U.S. Post Office at 6:58 p.m. on April 12, 2005. Therefore, the U.S. Post Office was indisputably in possession of the Express Mail EV667329735US before the delivery by Intellequick on April 12, 2005.

Based on the courier logs, which were made contemporaneous with the events in question and the time and date entries in the U.S. Post Office Express Mail tracking system, the Express Mail package was in fact deposited with employees of the U.S. Post Office on April 11, 2005. See also Express Mail Certificate executed on April 11, 2005, attached as Exhibit A, and sworn affidavits of Robert D. Atkins, Maritza O'Neill, William Bilyk and John Mitchell, attached as Exhibit D.

Based on reviewing the same information as explained above, the U.S. Post Office has confirmed and acknowledged in writing that “this mailing was dropped off at our Main Post Office on April 11, 2005, not April 12, as indicated on the Express Mail Label,” see attached Exhibit G.

On June 9, 2005, Applicants filed a first petition under 37 C.F.R. 1.10(d) requesting the filing date be corrected to April 11, 2005. On September 27, 2005, the USPTO dismissed the petition stating that Applicants had failed to provide corroborating evidence, see Exhibit H.

Applicants disagreed with the dismissal of the first petition and filed a second petition under 37 C.F.R. 1.10(d) on March 3, 2006, to further explain its position. The second petition was dismissed on June 21, 2006, for similar reasons as the first petition, see Exhibit I.

On October 19, 2005, the ‘159 application became abandoned.

In considering Applicants’ petitions, the USPTO to date has failed to consider the totality of the evidence. First of all, it is an absolute truism the Express Mail EV667329735US package containing the U.S. patent application as a nationalization of PCT patent application PCT/US2003/032887 was in fact deposited with the U.S. Post Office on April 11, 2005. Unfortunately, the date-in of the Express Mail is incorrect (which the U.S. Post Office has acknowledged). To demonstrate their position, Applicants have re-constructed the sequence of events which prove the April 11th filing date; see above discussion of the relevant facts.

Yet, in considering Applicants’ petitions, the USPTO has not considered or given proper weight to all of the evidence. The USPTO has not considered or even acknowledged the affidavits submitted with the petitions. The affidavits are sworn statements of the individuals who had direct knowledge of the matter in question and provide a complete chain of custody for the Express Mail package. Well-established jurisprudence demands that the affidavits be given appropriate evidentiary weight. It is improper to ignore these sworn statements. Based on the courier logs, in combination with the sworn affidavits, the line of reasoning is simple - the U.S. Post Office had possession of the Express Mail EV667329735US package before the April 12th

delivery by the courier. Therefore, the Express Mail EV667329735US package could not have been deposited with the U.S. Post Office on April 12th. It was deposited on April 11, 2005. The independent and objective evidence contained in the courier logs and the U.S. Post Office records, created within one business day of the deposit in question, confirm this fact.

The U.S. Post Office understood this reasoning and provided its official statement confirming the actual date of acceptance. Yet, the USPTO decisions have discounted the U.S. Post Office letter because it does not set forth the factual basis on which the conclusion is based. Rule 10(d)(3) requires to the satisfaction of the Commissioner corroboration by evidence from the U.S. Post Office. Applicants believe that the letter is such corroboration under Rule 10(b)(3). To discount the letter implies that an official from the U.S. Post Office is reaching conclusions and making statements on a whim, which is simply not the case. The fact that the evidence was presented to the U.S. Post Office by Applicants' law firm does not make the evidence defacto suspect or diminish its objective elements. Just like the USPTO, the U.S. Post Office had to be convinced of the facts. The courier logs and the U.S. Post Office records, in combination with Applicants' affidavits, present a clear and undisputable picture as to what happened. Again, the U.S. Post Office understood and accepted the evidence and acknowledged the mistake. For the USPTO to discount an official statement from the U.S. Post Office out-of-hand is improper.

Again, Applicants maintain that Applicants' sworn affidavits must be given appropriate evidentiary weight, which the USPTO has failed to do. For these reasons, Applicants are compelled to invoke the supervisory authority of the Director under 37 C.F.R. 1.181 to seek a proper resolution. The affidavits, in combination with U.S. Post Office records, clearly prove that the Express Mail EV667329735US package was deposited with U.S. Post Office on April 11th. The U.S. Post Office records confirm that it had possession of the Express Mail EV667329735US package before Applicants' delivery on April 12th. Once these facts are understood, the only possible conclusion is that the Express Mail EV667329735US package was indeed deposited with the U.S. Post Office on April 11, 2005.

Petition Under 37 C.F.R. § 1.181

This petition is being filed as promptly as the circumstances and gathering of information would allow. The present patent application is of high business importance to the assignee of record. For all of the foregoing reasons and based on the supporting documentation, Applicants respectfully request the Director to grant this petition to accord U.S. Patent Application No. 10/531,159 a filing date of April 11, 2005.

Applicants further request that the '159 patent application be withdrawn from abandonment and submitted for examination before the USPTO.

Respectfully submitted,
QUARLES & BRADY STREICH LANG LLP

Dear Mr. Atkins:

After further review of your express mail piece number EV667329735US I have determined that this mailing was dropped off at our Main Post Office on April 11, 2005 not April 12, 2005 as indicated by the Express Mail Label. This mail piece had a next day delivery service standard and should have reached its destination in Alexandria Virginia on April 12, 2005. I apologize for the delay. If you have any further questions please do not hesitate to contact me at 602-225-3993.

Sincerely,

Melanie Thomas

This decision is in response to the "PETITION TO CORRECT A FILING DATE PRUSUANT TO 37 C.F.R. § 1.10(d)" filed 09 June 2005, requesting the Office to correct the national stage filing date.

BACKGROUND

On 11 October 2003, applicants filed international application PCT/US03/32887 that claimed priority of an earlier U.S. provisional application filed 11 October 2002. A copy of the international application was communicated to the United States Patent and Trademark Office from the International Bureau on 02 December 2004. Accordingly, the thirty-month period for paying the basic national fee for the national stage in the United States expired at midnight on 11 April 2005.

On 12 April 2005, applicants filed a letter for entry into the national stage in the United States which was accompanied by, *inter alia*, a declaration and the basic national fee of \$300. These papers were assigned U.S. Serial No. 10/531,159.

On 09 June 2005, applicants filed the current petition requesting that the above-identified application be accorded a national stage filing date of 11 April 2005.

DISCUSSION

37 CFR 1.10(d) states:

Any person filing correspondence under this section that was received by the Office and delivered by the "Express Mail Post Office to Addressee" service of the USPS, who can show that the "date-in" on the "Express Mail" mailing label or other official notation entered by the USPS was incorrectly entered or omitted by the USPS, may petition the Director to accord the correspondence a filing date as of the date the correspondence is shown to have been deposited with the USPS, provided that:

(1) The petition is filed promptly after the person becomes aware that the Office has accorded, or will accord, a filing date based upon an incorrect entry by the USPS;

(2) The number of the "Express Mail" mailing label was placed on the paper(s) or fee(s) that constitute the correspondence prior to the original mailing by "Express Mail"; and

(3) The petition includes a showing which establishes, to the satisfaction of the Director, that the requested filing date was the date the correspondence was deposited in the "Express Mail Post Office to Addressee" service prior to the last scheduled pickup for that day. Any showing pursuant to this paragraph must be corroborated by evidence from the USPS or that came into being after deposit and within one business day of the deposit of the correspondence in the "Express Mail Post Office to Addressee" service of the USPS.

Applicant has satisfied items (1) and (2).

✓ With respect to item (3), the Express Mail Label and the tracking information on the United States Postal Service website both indicate that the package was accepted on 12 April 2005. In order to refute this as the date of mailing, applicant has filed affidavits of Robert D. Atkins, William Bilyk, Maritza O'Neill and John Mitchell, along with a letter from Melanie Thomas of the United States Postal Service. Mr. Atkins states that he gave the package to Maritza O'Neill for filing with the USPTO. Ms. O'Neill states that she personally gave the package to Mr. Bilyk with instructions to mail the package the same day. She also states that Mr. Bilyk acknowledged receipt on that day, and placed the package in a bin designed for same day delivery to the United States Postal Service. Mr. Bilyk states that all packages were picked up by Mr. Mitchell on both the 11 April 2005 and the 12 April 2005 for delivery to the post office. Mr. Mitchell states that he picked up packages on both days and delivered the packages to the post office. Ms. Thomas states that upon further review, she had determined that the package was dropped off on 11 April 2005, and not the 12 April 2005.

Petitioner has not provided sufficient evidence from the USPS, as required under the rule. Specifically, Ms. Thomas fails to set forth the factual basis upon which her conclusion is based. If her conclusion was based on evidence provided to her by the law firm, then such would not constitute independent corroborating evidence.

Therefore, the application is abandoned.

Applicant may wish to consider filing a petition to the Commissioner under 37 CFR 1.137(b) requesting that the application be revived.

A petition under 37 CFR 1.137(b) requesting that the application be revived on the grounds of unintentional delay must be filed promptly after applicant becomes aware of the abandonment and such petition must be accompanied by (1) a statement that the "entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition was unintentional," (2) a proper reply unless it has been previously submitted, and (3) the petition fee required by law for revival of an unintentionally abandoned application (1.17(m)). In this instance, the fee required by law for revival of an unintentionally abandoned application is \$1500. If applicant can qualify as a "small entity" and does so prior to or together with the payment of the fee, the fee will be one-half of the amount indicated.

The filing of a petition under the unintentional standard cannot be intentionally delayed and therefore should be filed promptly. A person seeking revival due to unintentional delay cannot make a statement that the delay was unintentional unless the entire delay, including the delay from the date it was discovered that the application was abandoned until the filing of a grantable petition to revive under 37 CFR 1.137(b), was unintentional. A statement that the entire delay was unintentional is not appropriate if petitioner intentionally delayed the filing of a grantable petition for revival under 37 CFR 1.137(b).

CONCLUSION

Applicant's petition to correct the national stage filing date to 12 April 2005 is hereby **DISMISSED**.

Any further correspondence with respect to this matter should be addressed to the Mail Stop PCT, Commissioner for Patents, Office of PCT Legal Administration, P.O. Box 1450, Alexandria, Virginia 22313-1450, with the contents of the letter marked to the attention of the Office of PCT Legal Administration.

DECISION

This decision is in response to applicants' renewed petition under 37 CFR 1.10(d) filed on 03 March 2006.

BACKGROUND

On 14 October 2003, applicants filed international application PCT/US03/32887, which designated the U.S. and claimed a priority date of 11 October 2002. A copy of the international application was communicated to the USPTO from the International Bureau on 02 December 2004. The thirty-month period for paying the basic national fee in the United States expired at midnight on 11 April 2005 (29 January 2005 being a Saturday).

On 12 April 2005, applicants filed a submission for entry into the national stage in the United States which was accompanied by, *inter alia*, the U.S. Basic National Fee.

On 09 June 2005, applicants filed a petition under 37 CFR 1.10(d) requesting that the papers filed in the submission for entry into the national stage be accorded a date of 11 April 2005 rather than 12 April 2005.

On 27 September 2005, a decision was mailed dismissing applicants' petition under 37 CFR 1.10(d) because applicant had failed to provide a showing, corroborated by evidence from the USPS or that came into being after deposit and within one business day of the deposit of the correspondence in the "Express Mail Post Office to Addressee" service of the USPS

provide evidence from the USPS, which established to the satisfaction of the Commissioner that the requested filing date was the date the correspondence was deposited in the "Express Mail Post Office to Addressee" service prior to the last scheduled pickup for that day.

On 19 October 2005, the United States Designated/Elected Office (DO/EO/US) mailed a NOTIFICATION OF ABANDONMENT (Form PCT/DO/EO/909) indicating that the application was abandoned as to the United States of America as per the decision mailed 27 September 2005.

On 03 March 2006, applicants filed the instant renewed petition under 37 CFR 1.10(d).

DISCUSSION

A review of the application papers located in the application file reveals that they were stamped with a receipt date of 12 April 2005. The "Express Mail" label number EV667329735US is shown on the Transmittal Letter which itemizes the items being filed. The copy of the Customer Copy of the "Express Mail Post Office to Addressee" mailing label mailing label accompanying the petition contains the same "Express Mail" label number.

The copy of the Customer Copy of Express Mail mailing label #EV535680024US shows a "Date In" of "041205".

37 CFR 1.10(d) states:

(d) Any person filing correspondence under this section that was received by the Office and delivered by the "Express Mail Post Office to Addressee" service of the USPS, who can show that the "date-in" on the "Express Mail" mailing label or other official notation entered by the USPS was incorrectly entered or omitted by the USPS, may petition the Commissioner to accord the correspondence a filing date as of the date the correspondence is shown to have been deposited with the USPS, provided that:

(1) The petition is filed promptly after the person becomes aware that the Office has accorded, or will accord, a filing date based upon an incorrect entry by the USPS;

(2) The number of the "Express Mail" mailing label was placed on the paper(s) or fee(s) that constitute the correspondence prior to the original mailing by "Express Mail"; and

(3) The petition includes a showing which establishes, to the satisfaction of the Commissioner, that the requested filing date was the date the correspondence was deposited in the "Express Mail Post Office to Addressee" service prior to the last scheduled pickup for that day. Any showing pursuant to this paragraph must be corroborated by evidence from the USPS or that came into being after deposit and within one business day of the deposit of the correspondence in the "Express Mail Post Office to Addressee" service of the USPS.

As noted in the decision mailed 27 September 2005, a satisfactory showing has been made under 37 CFR 1.10(d)(1) and (2).

As to item (3), applicants still have not provided a satisfactory showing. 37 CFR 1.10(d)(3) requires any showing "be corroborated by evidence from the USPS or that came into being after deposit and within one business day of the deposit of the correspondence in the

‘Express Mail Post Office to Addressee’ service of the USPS.” As to this type of evidence, applicants have provided a letter from the USPS and a courier log from the courier who picked up the package at the law firm and delivered it to the USPS. Regarding the letter, as noted in the decision mailed 27 September 2005, the letter fails to set forth the factual basis on which the conclusion was based and that if her conclusion was based on evidence provided to her by the law firm, then it would not constitute independent corroborating evidence.

As to the courier log, it appears to be intended to satisfy what MPEP § 513 indicates is an adequate showing of the date of deposit under 37 CFR 1.10(d)(3). The relevant portion of MPEP § 513 states:

. . . a notation in a log book, entered after deposit by the person who deposited the correspondence as “Express Mail” within one business day of such deposit, setting forth *the items indicated above*, would be deemed on petition to be an adequate showing of the date of deposit under 37 CFR 1.10(d)(3). (emphasis added)

The “items indicated above” are

. . . a log book which contains information such as the “Express Mail” number; the application number, attorney docket number or other such file identification number; the place, date and time of deposit; the time of the last scheduled pick-up for that date and place of deposit; the depositor’s initials or signature; and the date and time of entry in the log.

The document provided by applicant includes the date and time of deposit. However, it does not appear to include any of the other information. In particular, it does not include the “Express Mail” mail number, any file identification number, or the date and time of entry in the log. Without the “Express Mail” mail number and file identification number, it is not clear how one is to reliably identify the package at issue. Without the date and time of entry in the log, it is not clear if the log came into being within one business day after deposit.

CONCLUSION

For the reasons set forth above, applicant’s renewed petition under 37 CFR 1.10(d) is **DISMISSED** without prejudice.

If reconsideration on the merits of this petition is desired, a proper reply must be filed within TWO (2) MONTHS from the mail date of this decision. Any reconsideration request should include a cover letter entitled “Renewed Petition Under 37 CFR 1.10(d).” No additional petition fee is required.

Applicant may wish to consider filing a petition to the Commissioner under 37 CFR 1.137(b) requesting that the application be revived.
